Root Register,  
Approximately 125' of 1  
3/8" Hose, Blackmer  
Pump.

INFO: Our refurbishing  
process varies depending  
on what each specific  
truck needs, with quality  
being our highest priority.  
Every truck goes through  
our 21 point Quality  
Inspection Checklist. We  
refurbish each truck to  
ASME and DOT  
standards. We then go  
through and completely  
detail the truck by steam  
cleaning the engine, the  
chassis, the tank, the  
meter box, etc. Next, we  
send the fuel truck to a  
third party vendor that  
performs the annual and  
five year test on the tank,  
along with the  
Department of

Transportation (DOT)  
annual inspection.  
Customers who purchase  
our trucks will have the  
benefit of a full annual  
and a full five year tank  
certification (P,I,V,K)  
along with the full annual  
DOT certification.
